

John,

Your excellent teaching skills and courteous personality has helped me tremendously with my journey of learning the proper Presentation Skills.

I realize that it take practice to perfect whatever you want to accomplish. You have given me the tools and guidance that I need to move forward with my presentation skills. I appreciate your advice and tips that will help me be a better presenter. You let me know what I was doing wrong along with giving ways I could correct my mistakes. I walked away with lessons to use the rest of my life in any arena of presenting. The atmosphere you both created for the class, was awesome. I like that you refer to your personal work-related situations as examples when teaching a lesson along with regular course outline.

Thanks and looking forward to attending other Fathom trainings.
